

**The North Carolina Environmental Health  
State of Practice Committee (NCEHSOP)  
presents:  
Lead Investigation & Remediation  
Workshop**

**5605 Six Forks Road, Raleigh, NC**

**September 6<sup>th</sup>- 8<sup>th</sup>, 2023**

**Cost \$200.00**

This 2 ½ day workshop is beneficial to anyone working in lead hazard reduction in environmental, clinical, regulatory and inspections programs. In addition, lead remediation protocols for child occupied facilities, including schools, is also a part of this workshop. It has been noted during program reviews and the accreditation review process that some county Health Departments do not have authorized lead agents that can monitor and maintain their environmental lead program. This workshop will equip attendees with the necessary tools to successfully manage and maintain a lead poisoning prevention program. This SOP workshop is a requirement for those seeking authorization in Childhood Lead Poisoning Prevention.
